Capital University of Science & Technology

8th ExcITe CUP
Excel in IT
May 27, 2023

Faculty of Computing
Capital University of Science & Technology

Capital University of Science & Technology, Islamabad, Pakistan is organizing **All Pakistan competition: ExcITe Cup 2023 (May 27, 2023)**, attracting brilliant programmers, young innovators, poster designers, athletes, and e-Gamers from educational institutes all over Pakistan. The term ExcITe Cup refers to the slogan "Excel in IT". The event attracts students from all over Pakistan and challenges the participants to showcase their ideas, compete with their peers to sharpen their skills to excel in the field of IT.

Every year, large number of universities participate in ExcITe Cup. The winners and participants are awarded with cash prizes, shields and certificates. The event is covered by different TV Channels, numerous newspapers, and Radio channels. This event would be the foundation for energetic and young minds where they would get a chance to compete with their peers from different universities. This exciting platform will provide an opportunity to brightest minds to prove their skills in technology competitions. It will also enhance their skills in learning and competing in friendly environment.

Inauguration ceremony of 7th ExcITe Cup 2019: Excel in IT

ExcITe Cup 2023 offers seven competitions:

- On Spot Poster Designing
- Software Project Exhibition
- E-Gaming
- Quiz
- On Spot Programming
- Table Tennis
- Hackathon

Closing ceremony of 7th ExcITe Cup 2019: Excel in IT

- **On Spot Programming:** This event invites brilliant programmers from all over Pakistan. They are given problems on spot & the programmers' need to think, design the solution, & implement it in real time.
- **Software Project Exhibition:** It attracts outstanding students whose degree projects have made them proud to present and discuss their ideas to extensive audience.
- **Quiz:** This competition critically evaluates the students in terms of important concepts from the core domains of computer science. Students are asked questions from the core concepts in the respective domain.
- **On Spot Poster Designing:** It challenges the creative graphic designers to come up with creative ideas over a specified theme. Students need to think creatively, apply innovative technologies and tools and come up with great ideas.
- **E-Gaming:** This competition gathers great online gamers of the country, normally in form of a team. The games selected for the ExcITeCup not only prove the identity of a gamer, but students also learn different important skills.
- **Table Tennis:** It provides opportunity to the students to use their strength and prove their metal in sports. Table Tennis increases the problem-solving capability of the young energetic individuals by developing a healthy mind.
- **Hackathon:** It invites the young entrepreneurs with innovative ideas for software apps, provides an opportunity to the innovators to get a positive feedback from the professionals over a particular idea.
